

BONIFACE MAINA

FINANCIAL ECONOMIST & DATA ANALYST (CPA CANDIDATE)

PROFILE

Results-driven Financial Analytics Professional with a strong foundation in Financial Economics and Data Science, currently pursuing CPA certification. Skilled in financial modeling, statistical analysis, and risk assessment, with the ability to translate complex data into actionable business insights. Demonstrates proficiency in tools such as Excel, Stata and python to support data-driven decision-making, improve financial performance, and enhance internal controls. Committed to accuracy, integrity, and continuous professional growth within dynamic organizational environments.

WORK EXPERIENCE

JANDONGAR INVESTMENT LTD 06.2025 - 09.2025
Intern / Assistant

- Assisted in financial record keeping, processing transactions, preparing basic financial reports, and supporting administrative duties within the finance and operations department. Gained exposure to real estate investment operations, accounting systems, and client-related financial documentation.

NGERE TEA FACTORY CO. LTD 05.2024 - 08.2024
Industrial Attachment

- Assisted in maintaining financial records, supporting payroll processing, preparing basic accounting reports, and reconciling transaction data. Gained practical exposure to cost accounting, production-related financial tracking, and internal financial controls within a manufacturing environment.

EDUCATION

KASNEB 01.2026 - Present
CPA (Candidate)

- CPA (Certified Public Accountant) is a professional accounting qualification that develops skills in financial reporting, auditing, taxation, and management accounting. I am currently progressing through the CPA program and will be joining the Intermediate level soon to further strengthen my accounting and analytical skills.
